KOLAR GOLD FIELDS.

MINUTES OF A SPECIAL MEETING OF THE KOLAR GOLD FIELDS SANITARY BOARD, HELD ON THE 17TH NOVEMBER 1902.

PRESENT.

Ex-Officio Members.

F. E. C. Carr, Esq., President. | E. S. Krishnaswamy Iyer, Esq., Civil Surgeon.
R. B. Plumer, Esq., Vice-President. | G. Lavelle, Esq., Inspector of Mines.

Non-Official Members.

Richard Hancock, Esq. | Dr. T. J. O'Donnel.
R. H. P. Bullen, Esq. | R. E. George, Esq.

1. The President explained to the Board the object for which the special meeting had been convened, namely, to consider the relative positions of the Sanitary Board and Plague staff with regard to Plague Administration on the Field, and to determine the strength of establishment which was necessary for each.

2. A letter from Dr. O'Donnel, Chief Medical Officer of the Mining Board, on the subject, was read suggesting that the Plague and Sanitary Board establishments should be amalgamated and constituted into one establishment, and placed under one supervising officer, as was the case on the mining properties.

3. The President pointed out that, although for some reasons it would be advantageous to amalgamate the two Departments, from the nature of the work, and the different sources from which each Department was paid, the proposal would be practically unworkable.

Plague expenditure in a great part being met frem *Provincial Funds*, and the expenses of the Sanitary Board establishment from the Sanitary Board Funds.

The duties also being of such a divergent nature, two separate officers, *viz.*, the Vice-President, Sanitary Board and Civil Surgeon as Plague Officer, were required to adequately supervise them, the Civil Surgeon having his Government Hospital, Plague Hospital, Plague Inspection work to supervise, the Vice-President having his Municipal, Licensing, Magisterial and other duties, all connected with the Sanitary Board work to look after.

The President, however, added that both Departments were virtually *under one head*, namely himself, as President of the Sanitary Board, and Deputy Commissioner in charge of the *Plague Administration of the District.*

4. He further called attention to the fact that during the last three years, the income of the Board had more than doubled itself, and that, as a natural consequence, the responsibilities of the Board, and the purely Municipal work of the Board's establishment had proportionately increased.

5. He then read out a statement showing the various duties carried out by the Sanitary Inspector of the Board as follows :—
